## SPECIAL EQUIPMENT

VOP CZ, s.p. has a long tradition in repair, production and modernisation of special equipment. It was established after the Second World War as a military equipment repair shop. The business gradually expanded to include development, modernisation, production and servicing of ground-based military equipment and engineering production focusing primarily on the manufacture of machine parts intended for export to Western Europe.

### TRACKED VEHICLES

We offer repairs, general overhauls, modernisation and reconstruction of tanks, combat vehicles, air defence equipment or APCs. We have extensive experience with equipment such as T-55 & T-72 main battle tanks and BMP-1 & BMP-2 infantry fighting vehicles (including conversions to command, recovery and ambulance versions), BTR, OT-62, ATL, ATS, ATT and Mazur tracked artillery tractors, T-34, LT-35 and IS-3 historical tanks, etc.

### WHEELED VEHICLES

For our partners we provide servicing and production of wheeled vehicles, such as production of the Pandur II 8x8 wheeled combat vehicles for the Austrian Steyr-Daimler-Puch, modernisation and post-warranty servicing of IVECO 4x4 light armoured vehicles, Land Rover repairs, production of special mission kits based on off-road vehicles, POKA field kitchens, modification of drop-trailers, and more...

### ENGINEER EQUIPMENT

For engineer corps we offer equipment for bridge construction, earth-moving machinery, mine clearance gear, and other engineer equipment. This specifically includes AM-50 and AM-70 bridge vehicles, the PTS-10 tracked amphibious carrier, the Božena mine-clearance set, the MT-55 bridge tank and other interesting and proven products.

### MODULAR SURVEILLANCE SYSTEMS

We have developed mobile and compact systems for surveillance and monitoring purposes. This specifically includes a 2D and 3D scanner – camera chassis detector, MKPV Mobile Entrance Checkpoint, KPCO Command Control Centre, personnel checking and protection systems, PDS Reconnaissance and Observation System, mobile masts, modular watchtowers and a mobile hydrometeorological station.

### NBC PROTECTION GEAR

As part of our NBC protection gear we have developed and manufactured filtration and ventilation equipment, ACHR-90M and MDA decontamination vehicles, LINKA-08 military hardware decontamination equipment, S-LOV-CBRN light armoured vehicle sets, SDO personnel decontamination kits, EDS mixers, VAP-1 radiation and chemical reconnaissance sets, a portable container radiometric laboratory and a mobile chemical laboratory.

### FIELD HOSPITALS AND MEDICAL EQUIPMENT

The provision of mobile healthcare is a crucial aspect of protection and safety. We offer medical complexes and mobile medical modules. The main group includes ISO containers and operating theatres, X-ray stations, laboratories, pharmacies, dental surgeries, disinfection worksites, cells for patients, field morgues and other variations.

### SERVICES AND OTHER SPECIAL EQUIPMENT

- 7 Repairs to military equipment
- 7 Product life-cycle support
- 7 Classroom training base
- 7 Mobile workshops
- 7 Workshop equipment
- 7 Gel battery conservators
- 7 Long-term storage of equipment
- 7 Environmentally-friendly disposal of equipment
- 7 Packaging and storage of equipment
- 7 Reconstruction of historical equipment
